1.0 Waste Collection Contracts

1.1 Cornwall and the Isles of Scilly

Figure 1: Residual Waste Collection Contracts in Cornwall

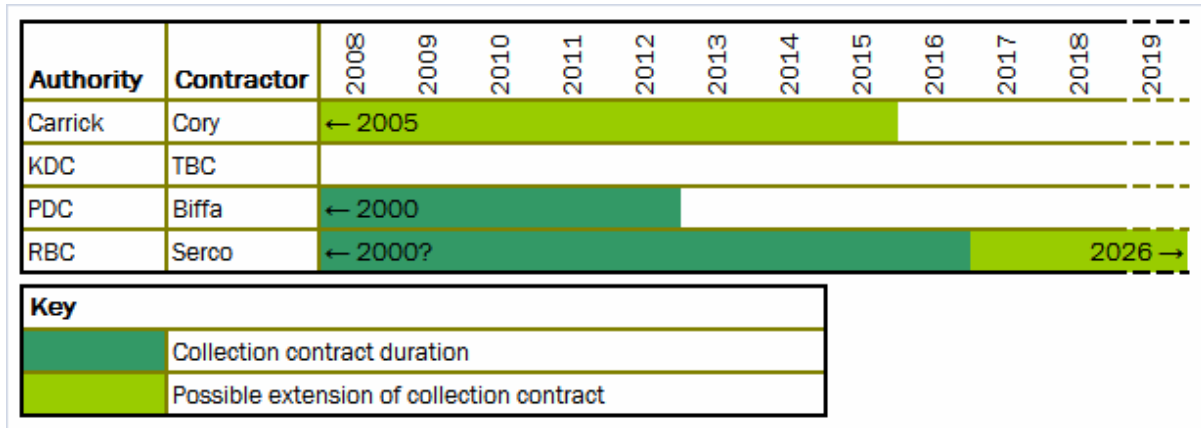

Figure 2: Recycling Collection Contracts in Cornwall

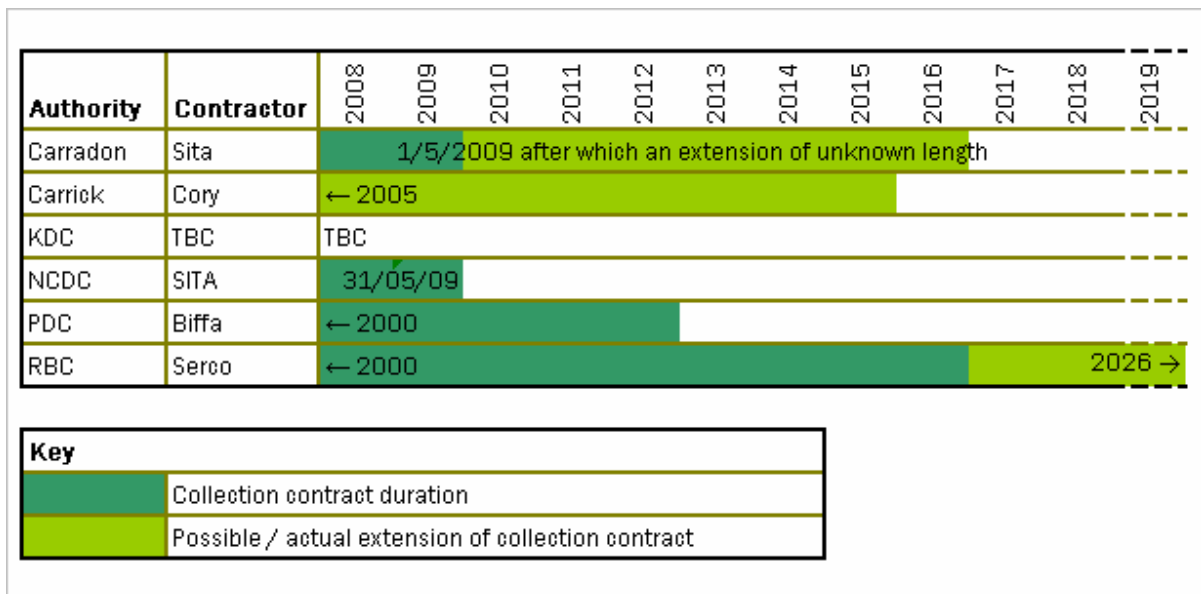

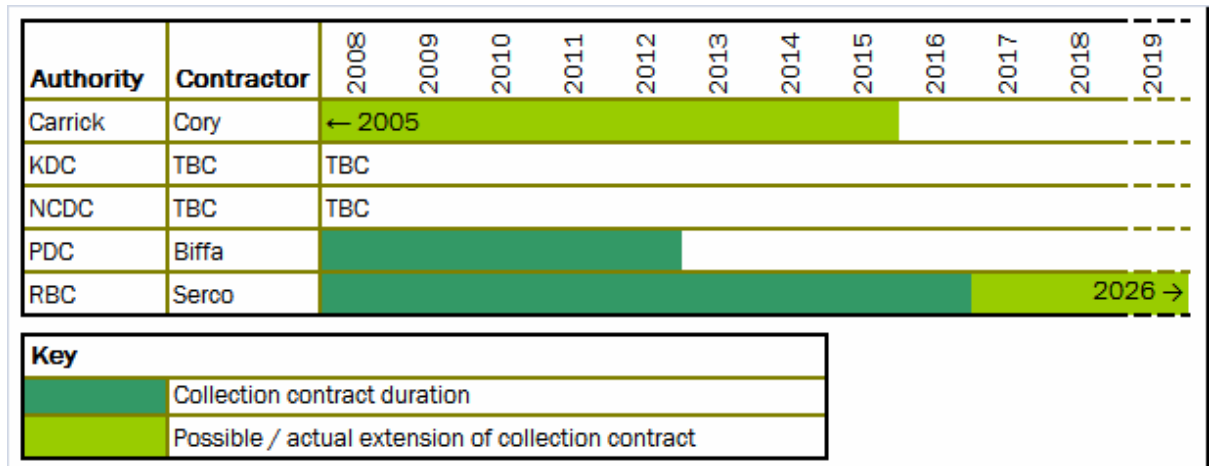

Figure 3: Green Waste Collection Contracts in Cornwall

The residual waste contracts held by Carrick, Penwith and Restormel, with Cory, Biffa and Serco respectively, also cover recycling and green waste collection.

1.2 Devon, Plymouth and Torbay

Figure 4: Residual Waste Collection Contracts in Devon, Plymouth and Torbay

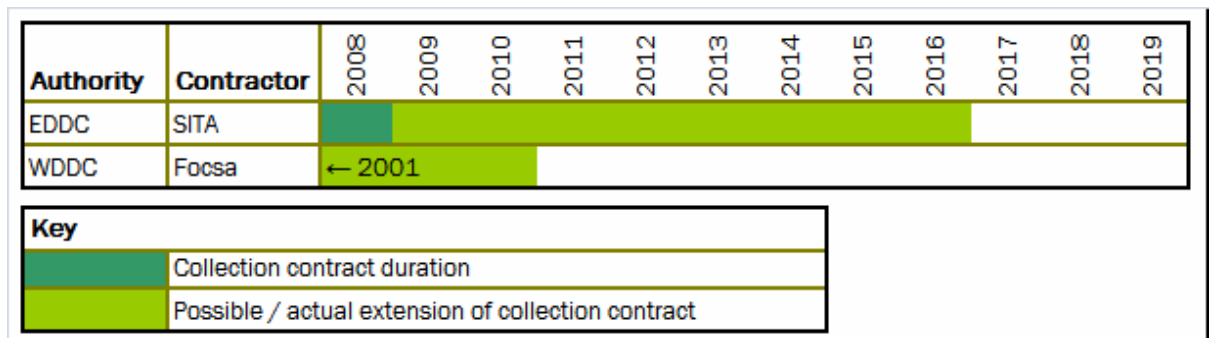

Figure 5: Recycling Collection Contracts in Devon, Plymouth and Torbay

Authority	Contractor	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019

WDDC	Focsa	← 2001											

Key	
	Collection contract duration
	Possible / actual extension of collection contract

*Mid Devon Community Recycling
 **South Molton Recycling Ltd.

West Devon is the only authority which has biowaste collected under private contract. This service is provided under the same Focsa contract as shown in Figure 4 and Figure 5.

East Devon’s contract with SITA covers residual and recycling collections.

1.3 Dorset, Bournemouth and Poole

Figure 6: Waste Collection Contracts in Dorset

Authority	Contractor	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	
PDC	SITA							Oct 13						

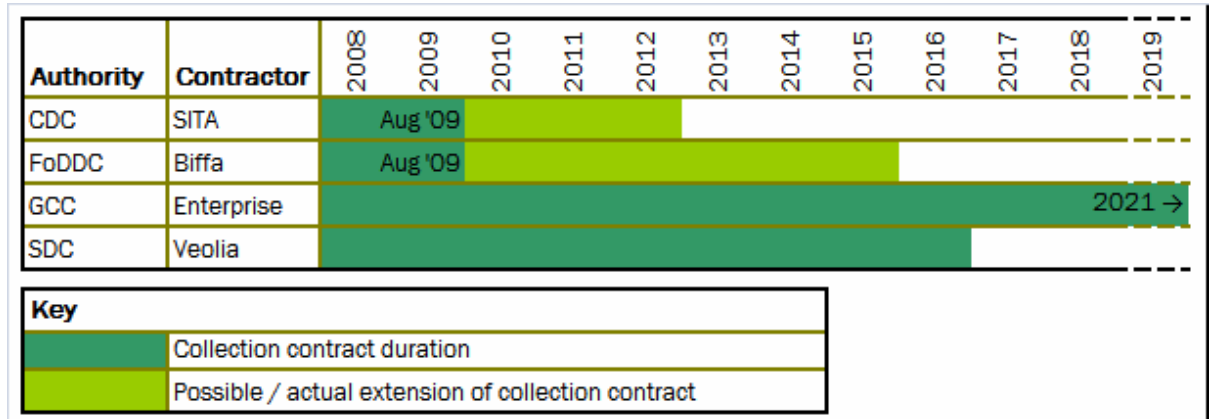

Key	
	Collection contract duration
	Possible / actual extension of collection contract

All of the authorities run their recycling collection services in-house with the exception of Purbeck District Council whose service is provided under the same SITA contract that provides for refuse collection (as shown in Figure 6 above).

No authorities in Dorset collect organic waste under contract.

1.4 Gloucestershire

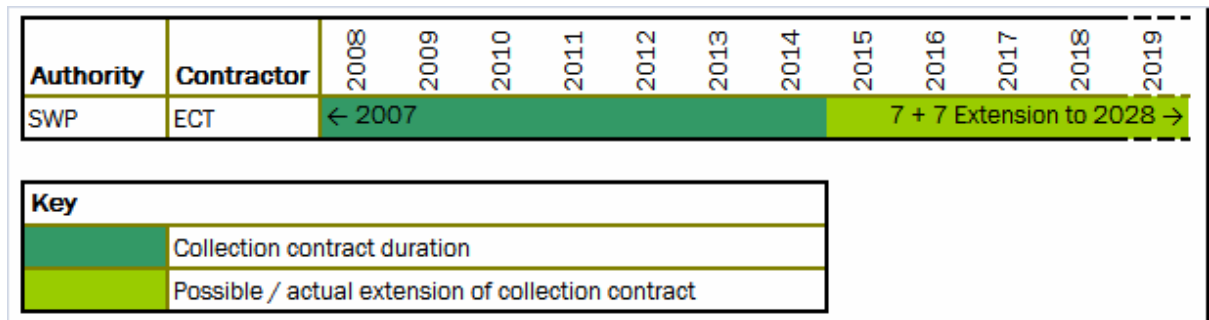

Figure 7: Waste Collection Contracts in Gloucestershire

Dry recycling and biowaste are collected by all authorities under the same contracts as the residual waste, as shown in Figure 7.

1.5 Somerset

Figure 8: Waste Collection Contract in Somerset

Dry recycling and biowaste are collected by ECT under the same contract under which residual waste is collected, as shown in Figure 8.

1.6 The West of England Partnership

Figure 9: Residual Waste Collection Contracts for the West of England Partnership

	Possible / actual extension of collection contract

South Gloucestershire and Bristol's contracts with SITA cover residual, recycling and biowaste collections. However, SITA sub-contract ECT to provide Bristol's recycling and biowaste collections.

1.7 Wiltshire and Swindon

Figure 12: Residual Waste Collection Contracts for Wiltshire and Swindon

SDC	TBC	TBC											
WWDC	Focsa	← 2007											

Key	
	Collection contract duration
	Possible / actual extension of collection contract

*Swindon Commercial Services

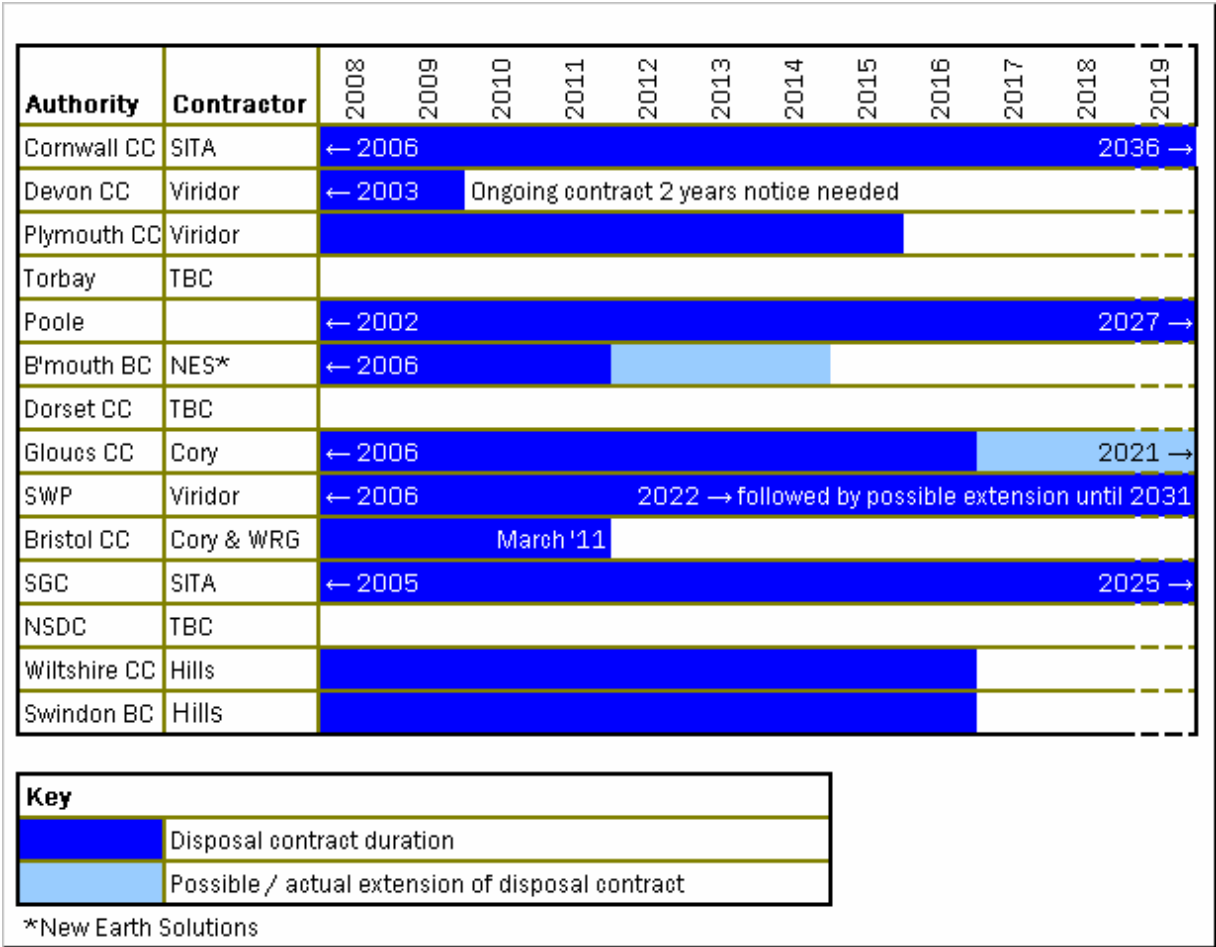

The contract held by Swindon with Swindon Commercial Services covers residual, recycling and biowaste collection.

West Wiltshire’s contract with Fosca covers residual and green waste only.

2.0 Waste Disposal Contracts

2.1 Residual Waste Disposal

Figure 15: Residual Waste Disposal Contracts for the South West

2.2 Recycling Disposal Contracts

The disposal of dry recyclate is generally managed under the same contracts as residual waste disposal. Bath and North East Somerset whose materials are managed by ECT under contract to 2017 and Swindon whose materials are managed by Swindon Commercial Services to 2011 are exceptions to this.

2.3 Biowaste Disposal Contracts

Figure 16: Biowaste Disposal Contracts for the South West

Authority	Contractor	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019

NSDC	TBC													
Wiltshire CC	Hills													
Swindon BC	SCS*	← 2006												

Key	
	Disposal contract duration
	Possible / actual extension of disposal contract

*Swindon Commercial Services

Biowaste disposal is usually managed under the same contract as the residual and recycle management. Exceptions here are Swindon who have contracted Swindon Commercial Services to dispose of their biowaste. Several biowaste contract details need to be confirmed throughout the region.
